3rd Floor Conference Room

Receiving a diagnosis of dementia can be emotionally shocking for not only the individual diagnosed but family and friends as well. Living with the diagnosis is the next step and getting support from those accepting the diagnosis can help to show that you are not alone. Others within our local community as well as around the world can help you face the future with hope and optimism. Come join us for an evening where you will learn "tips and tricks" for living life to the fullest despite memory difficulties. Through the stories of others who are overcoming obstacles, you will find that joy can still be experienced in living each day to the fullest.
