Telehealth Pilot Program
LG Health and Willow Valley Retirement Communities have partnered together to offer a new way for you to “see the doctor”.

Called the Telehealth Pilot Program, current patients of The Heart Group of LG Health and Geriatric Specialists will soon be able to have an “office visit” with their doctor via a secure video conferencing system.

Located in an office on the campus of the Willow Valley Retirement facility, patients are greeted and taken to the video room. A nurse checks vital signs and reviews medications and enters the information into the computer. She then accesses and activates a video link that allows the patient and physician to speak directly with each other.

This type of visit is scheduled at the physician’s office and is selected as an appropriate telehealth follow-up visit. If the doctor feels that the patient should be seen in person, a regular office visit is recommended. A typical telehealth visit is a follow-up appointment. Same-day sick visits do not qualify as an approved visit type.

The cost of the visit is $10.00 and is payable at the time of the appointment by cash or check.

Please see your provider for more information.

Physicians participating in telehealth visits:

Joseluis Ibarra, MD, FACC
The Heart Group of LG Health

R. Ward Pulliam, MD, FACC
The Heart Group of LG Health

John P. Slovak, MD, FACC
The Heart Group of LG Health

Roy S. Small, MD, FACC, FSCAI
The Heart Group of LG Health

Kristen M. Nebel, DO
Geriatrics Specialists

Maria V. Vasiliadis, DO
Geriatrics Specialists
