

Penn Medicine HealthWorks

WORKSITE FLU SHOTS

Keeping your workplace healthy is more important than ever. Penn Medicine HealthWorks is here to help by bringing flu shot clinics onsite. Choose the time that's most convenient for your workforce and help prevent or reduce the severity of the flu season.

SCHEDULING

Flu clinics run from September into early November, meeting the CDC's recommended guidelines. Our HealthWorks team works with you to identify the most convenient day and time for your onsite clinic. Walk-in flu shots are also available at the Suburban Pavilion on select dates.

DOCUMENTATION

Flu shots will be documented in the patient's electronic medical record, offering care continuity between patients and providers. Employees can find record of this through the electronic patient portal, MyLGHealth.

PRICING

Cost is \$32 per person.

A travel fee of \$150 applies to locations beyond Lancaster County. Minimum fees apply if your business enrolls fewer than ten participants. Health plan claims processing available. Pricing may vary.

Routine health practices, such as the flu vaccine, are essential in creating a safe and healthy environment at work and at home.

DID YOU KNOW?

- 10 - 12% of work absences are because of the flu
- The average number of workdays missed from flu is 4.9
- Onsite programs are convenient and safe with an estimated ROI of \$2.58 per \$1.00 spent

Clinics begin in September and schedules fill fast.

Email Flu-Corp@pennmedicine.upenn.edu or call (717) 544-3527 to firm up details for your worksite flu shots.
